

Liferay Portal

Liferay Portal is one of the most mature portal frameworks on the market. With over 700 deployment combinations, user-friendly interface, and its extensive list of out-of-the-box features, Liferay Portal is quickly becoming the top choice for organizations of all sizes.

Consulting Services

Youngsoft Liferay consulting services include but are not limited to the following:

- Installation, migration, and customized development
- Theme design
- Custom Portlet development
- Administration and Performance Tuning
- Ongoing site maintenance
- Contract consulting services
- Onsite and Offsite project management and execution

Liferay Enterprise Edition (EE)

Provides long-term maintenance of production Liferay deployments through a combined subscription and support package

Features and Benefits

- Access to source code and binaries of all supported versions
- Continuous updates and patches
- Exclusive maintenance releases
- Service Oriented Architecture (SOA) – provides a consistent interface for accessing portal data that few other products can match
- Multi-Tier, Limitless Clustering
- Single Sign On
- Pricing – Liferay Enterprise Edition (EE) has 3 different levels of subscription, suitable for enterprises of all sizes. Compared to other enterprise portal software, Liferay is by far the best price, with better features and benefits!
